

June is here, are you ready?

Might not be the question you were expecting, who gets ready for June? While it might be a month full of activity for everyone it is not usually a time that people are preparing for with intent.

Why don't we make an effort to change that. Take a moment, step back and reflect on the upcoming month. We are in the 6 month of the year, how have things gone so far? Take a moment to reflect, ponder, and plan. Look at where you have been and compare it to where you wanted to be. How will you use that to shape the rest of your year?

If you are looking for more detailed help to practice this type of reflection, take a look at this site, the **Jesuit Resource Site** from the Mission and Identity office.
