Xavier University: Childhood Education and Literacy

Steps and Requirements for Ohio License Early and Middle Childhood Education

To: Early and Middle Childhood Education Majors, before student teaching

From: Sally Barnhart, Xavier Clinical Faculty & Field Placement Coordinator

Re: OAE Exams

As a reminder, all Early and Middle Childhood Majors will be required to pass ALL OAE content area tests in your declared majors, before beginning student teaching in the assigned schools. You may take the Professional Knowledge Exam, during your student teaching semester. If you are concerned about the OAE test, it is recommended that you purchase the student guides from Pearson for OAE exams in your content areas. Additionally, if you are unsure as to your readiness for a particular test, please consult your advisor.

It is important that you complete this form and return it to Sally Barnhart.

Your Name___________________________

Your Major__________________________ (list the two content areas, if you are Middle Childhood)

__________________________________________________________________________

When you have passed the exams, please email me a copy of the document that states you passed each exam. (barnhart@xavier.edu) You will not be permitted to student until you have passed the required OAE test for your content area(s) and submitted the documentation.

I have read and agree to the continued steps for student teaching in Early or Middle Childhood.
