

Evaluation of Completed Unit of Study

Organization

Goals and objectives are clearly expressed.

Scheduling chart is included.

Briefly annotated bibliography is included.

Activities and Materials are clearly described.

Scholarship

Grade level is provided and reflects standards such as Ohio Model Curriculum.

Unit demonstrates topic knowledge.

Activities demonstrate creative thinking and age appropriateness.

Activities are varied for written work, hands-on, technology, individual and group experiences.

Unit integrates several subject areas.

Assessment techniques are varied and authentic.

Self-evaluation section reflects ability to determine whether or not the teacher, children, and plans achieve objectives.

Materials/Learning Centers

Materials are: age appropriate, allow for range of competency error free, creative, durably constructed, possess aesthetic integrity (no distracting cartoon characters), relevant to unit concepts, provide opportunities for synthesis (not just process or activity), provide for individual work as well as social interaction, self-correcting when possible.

Learning Center is visible, accessible, attractive, encourages participation, provides adequate space or material that can be carried to the child's table.

Record keeping sheet is available to monitor choices and progress.
