

Quad Angles

THE NEW JAMES E. HOFF, S.J.,
ACADEMIC QUAD CREATES A NEW
GATEWAY TO CAMPUS—AND TO
THE FUTURE OF LEARNING AT XAVIER

PHOTOGRAPHY BY GREGORY RUST

SMITH HALL
TRADING ROOM

The Trading Room has more Bloomberg Terminals than any brokerage in town, allowing students to make better investment decisions and giving them an advantage in the job market.

SMITH HALL

By almost any measure, the Williams College of Business has become one of the nation's leading business schools, and its new home in Stephen and Dolores Smith Hall is a space worthy of its standards. The building features a powerful combination of office, academic and professional development space geared toward the growth of faculty, students and the local business community.

FAST FACTS:

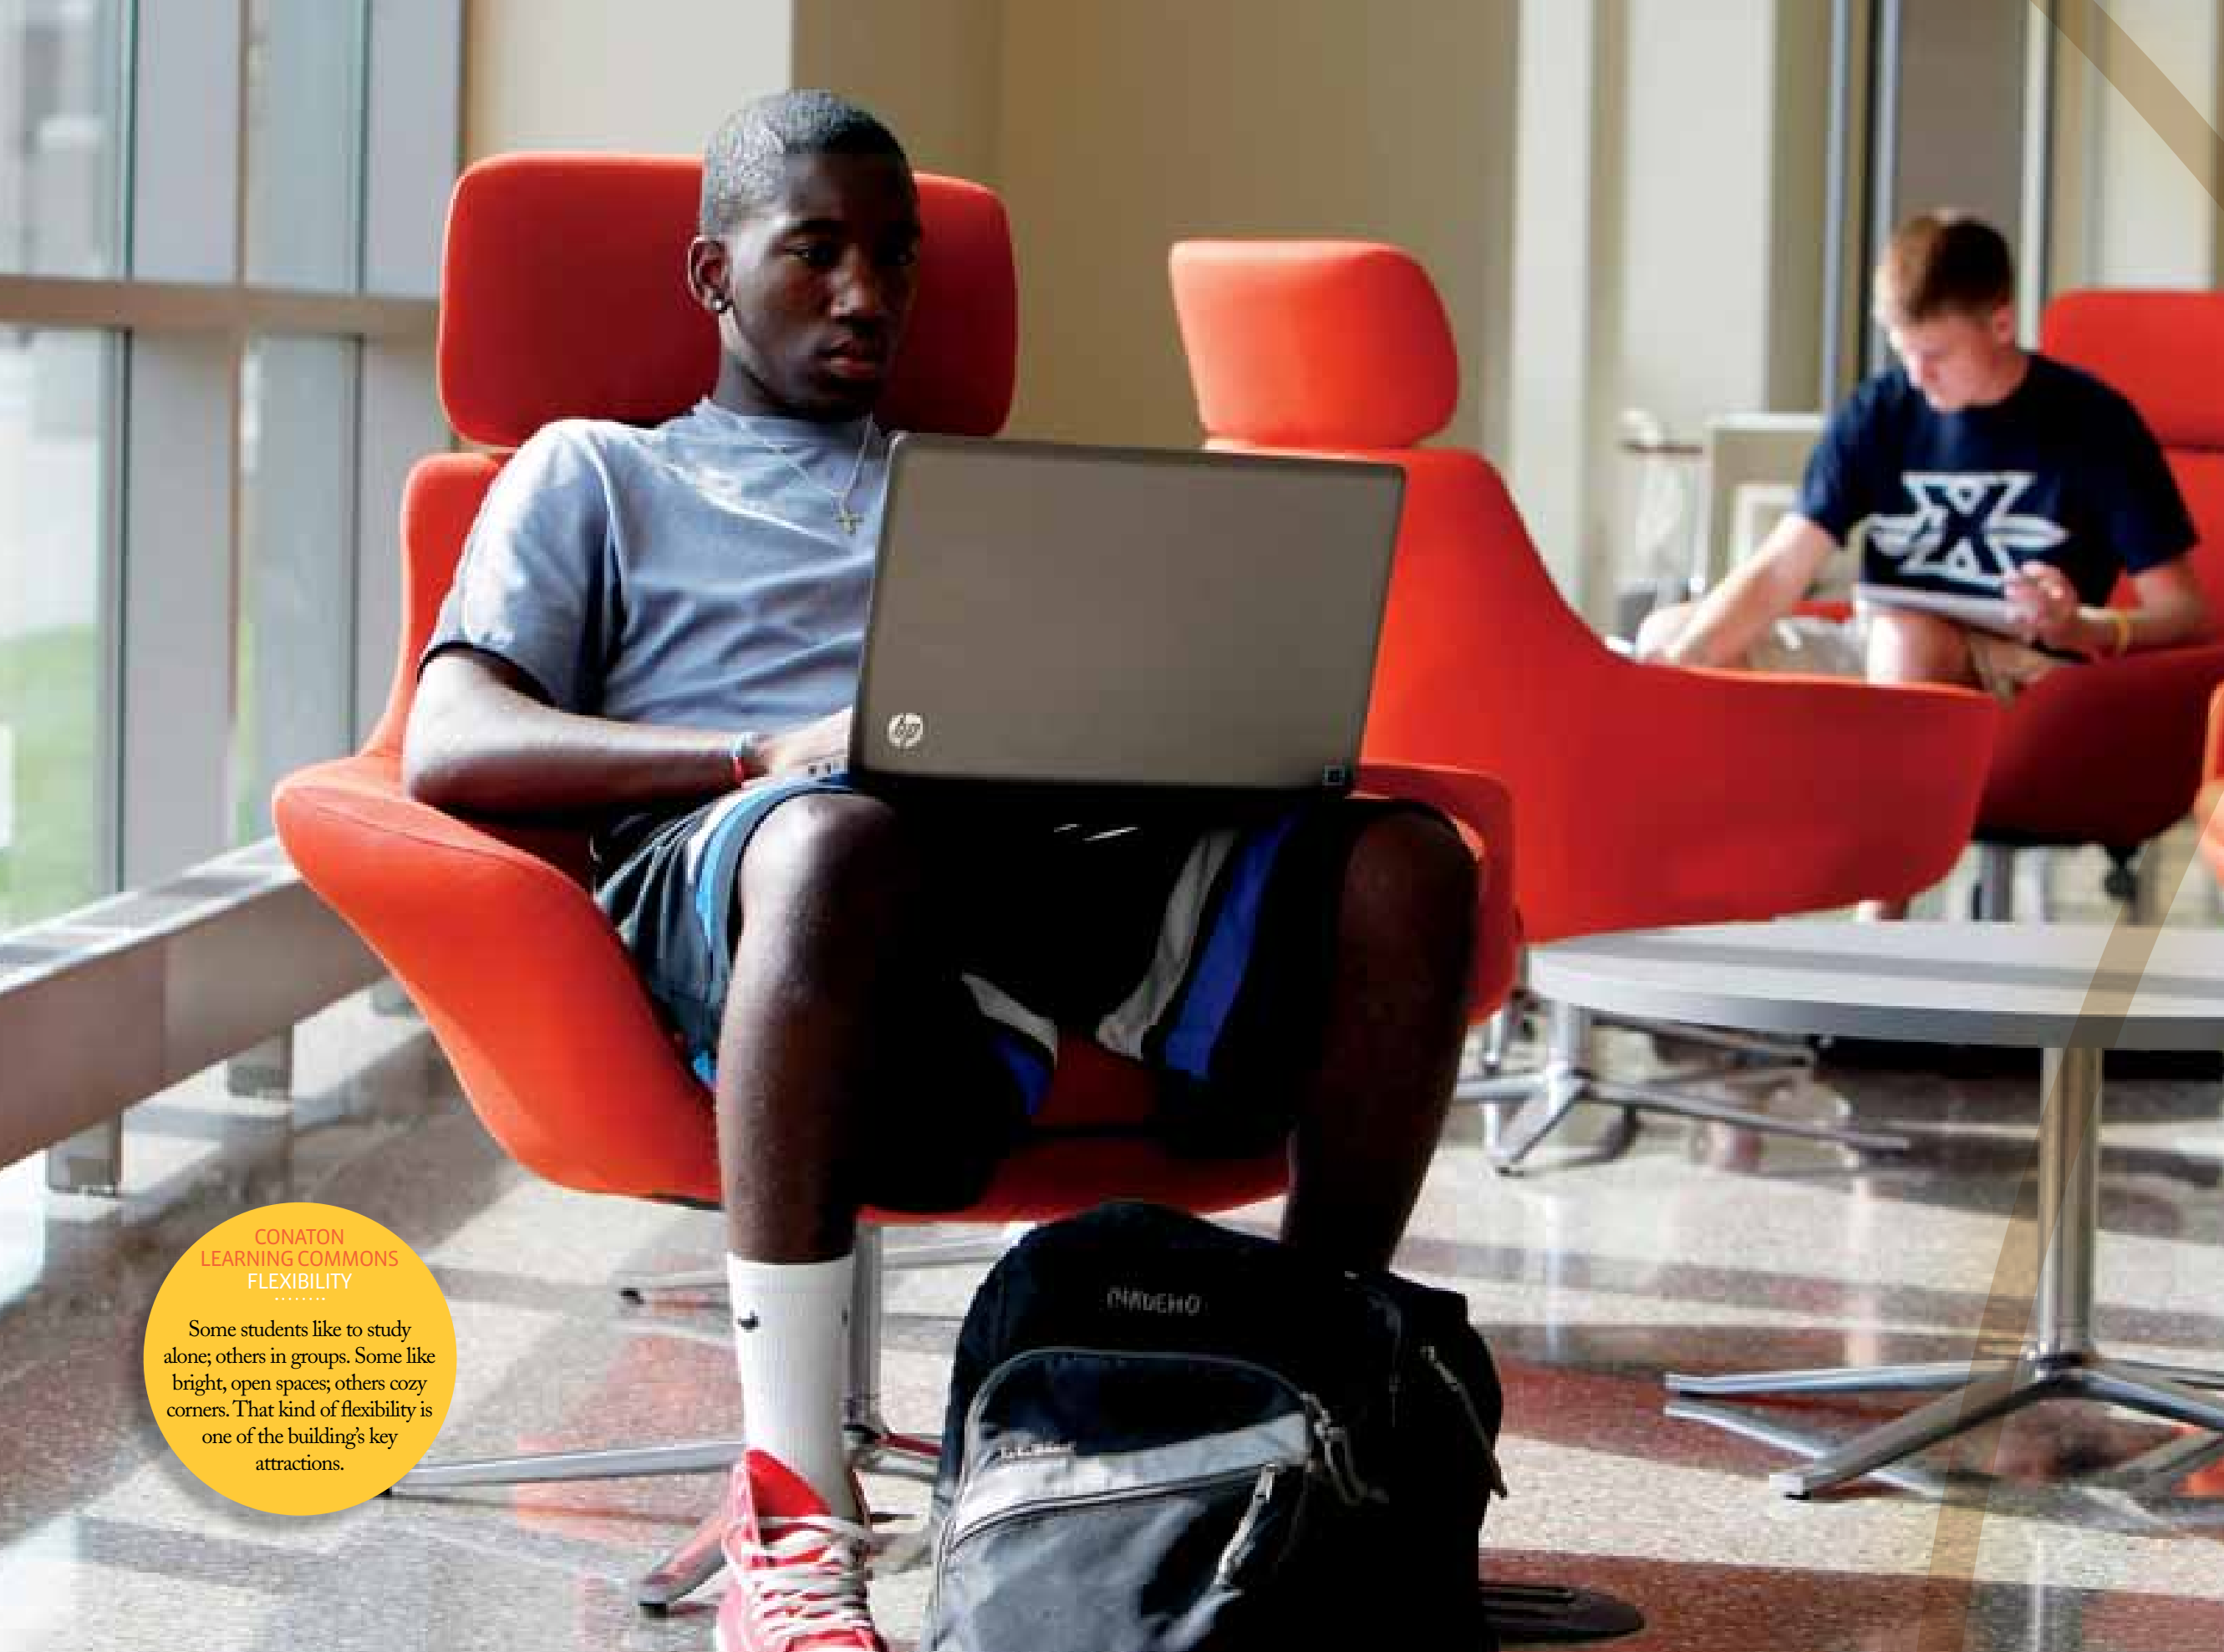

- 88,000 square feet over four floors
- Includes center for entrepreneurship, business eth-

SMITH HALL
COURTYARD

As part of the University's goal to create a "campus in the park," dozens of trees were planted and landscaping was maintained to Xavier's high standards.

CONATON LEARNING COMMONS

The Michael J. Conaton Learning Commons is the perfect combination for today's student, mixing technology, resources and comfort into a relaxed, 24/7 environment. By being connecting to the McDonald Library, the Learning Commons bridges the gap between books and computers. And through group study rooms, technology training rooms and experimental classrooms, it also addresses the ever-changing world of how students learn.

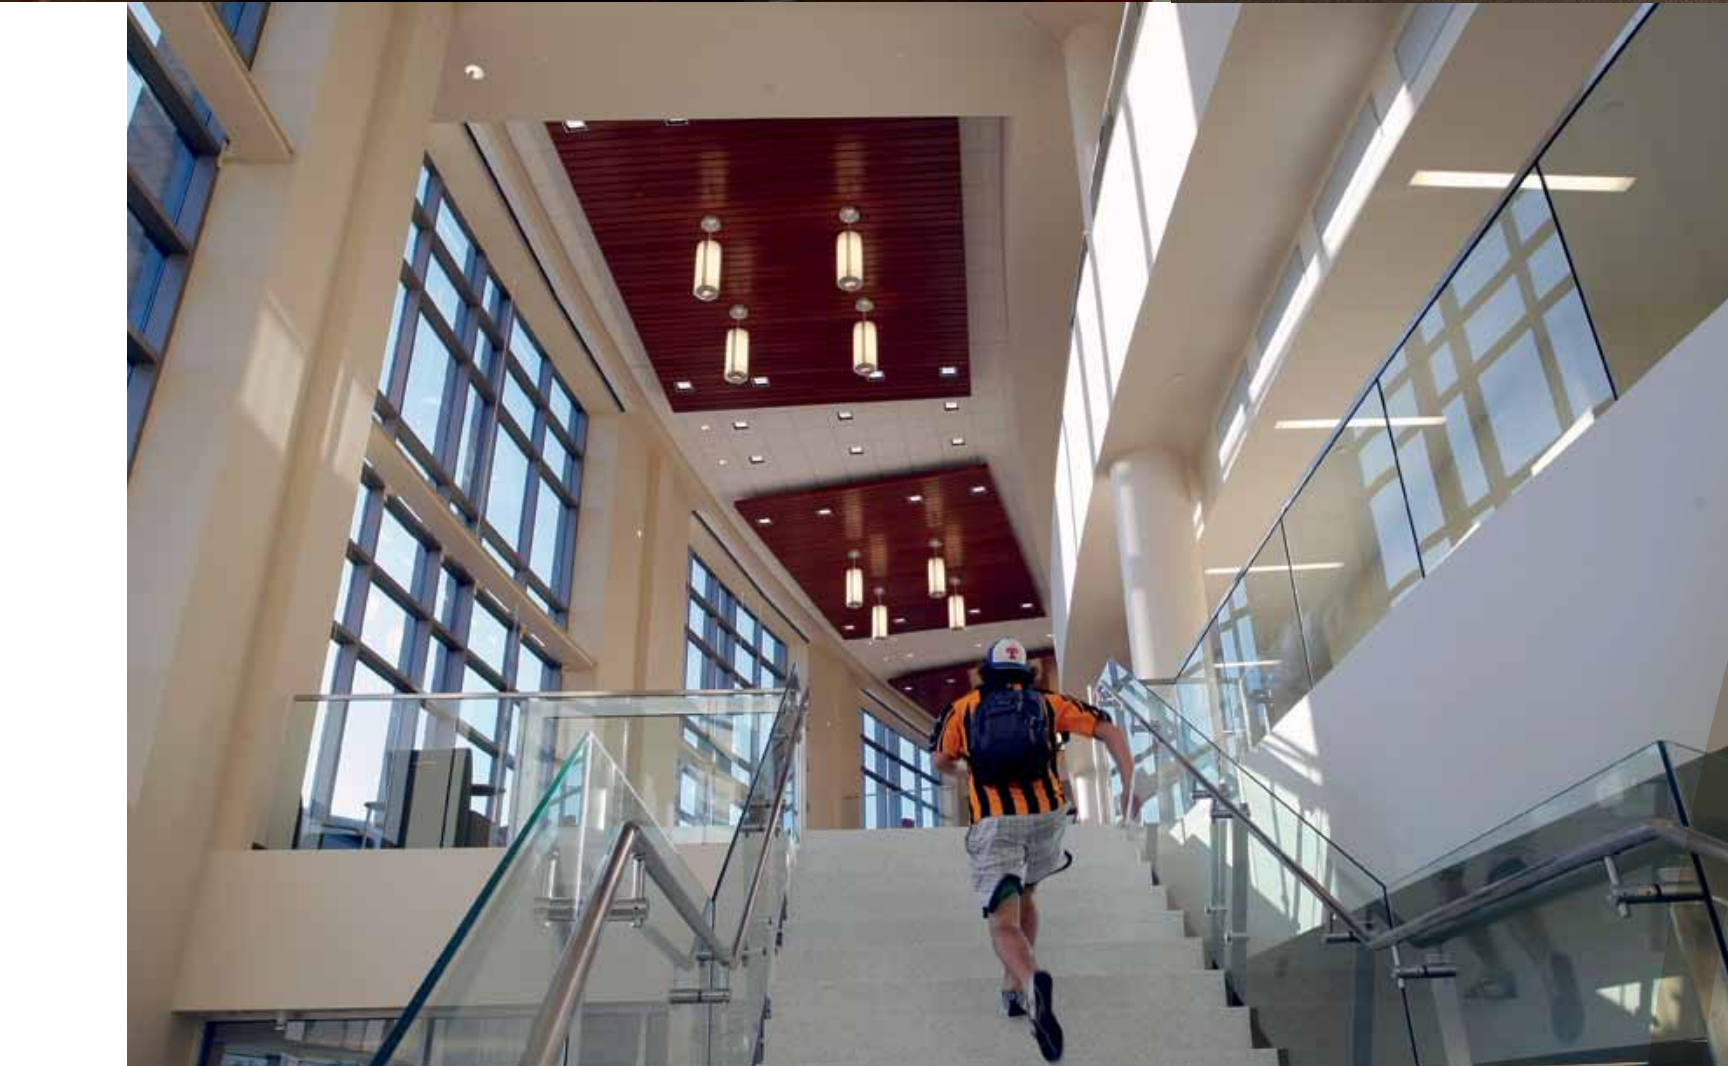

CONATON LEARNING COMMONS FLEXIBILITY

Some students like to study alone; others in groups. Some like bright, open spaces; others cozy corners. That kind of flexibility is one of the building's key attractions.

**CONATON
LEARNING COMMONS
COMFORT**
.....
From comfortable chairs and footstools to desks that can be divided into small and large study areas, the Learning Commons offers something for all studying styles.

FAST FACTS:

- 84,000 square feet over five floors.
- Open 24 hours a day, seven days a week.
- Houses centers for academic advising and career services.
- Includes labs for math, writing and modern languages.
- Individual and group study spaces with plasma screens, wireless Internet and moveable white boards.
- Contains a digital media lab, classrooms, technology assistance, auditorium and cafe.

**CONATON
LEARNING COMMONS
TECHNOLOGY**
.....
Located next to where the Learning Commons connects to the library, the Connection Center is the link to all things high tech.
