ART Charge – Building Program Expectations

Provide an **identity for the College of Arts and Sciences** and Xavier’s Honors Programs

**Engage the campus community** as a facility that **all Xavier students and faculty will experience**

**Overtly communicate Xavier’s commitment to a sustainable environment**, including **complementing other campus resources and avoiding unnecessary duplication**
ART Charge – Building Program Expectations

- Serve as the primary 21st century teaching and learning facility
- Provide a general “classroom” portfolio for the campus, including flexible environments that enable dynamic, active, problem based, and collaborative pedagogies that will continue to evolve
- Offer the appropriate blend of program ingredients to facilitate learning outcomes
- Together with existing campus facilities, meet Xavier’s instructional needs for an undergraduate enrollment of 5,000 FTE students with the assumption that there will be no new academic buildings for at least the next ten years.
