7. The Xavier Faculty appropriately communicated with me about the intern's progress.						3.85	1.20

## **School Counselor Intern Supervisor Comments**

### **Evaluation Period Fall 2005 – Spring 2008**

“It has been a worthwhile experience. I learn from them as well as instructing them.”

“I have been impressed with the knowledge and quality of the Counseling interns. They are well prepared and willing to learn about our programs. Keep up the excellent work.”

“Great program. I would like to see Graduate counseling programs approach the ethical issue of educators that may cross the line with students. When a student comes to a counselor with this matter, the counselor’s role and how a counselor may be pulled on by a staff member who is their fellow colleague in this awkward and traumatic ordeal.”

“This is a wonderful program. Top notch in my book!”

“I found both interns well prepared.”

“Excellent program, but there is always room for improvement. Problems have been with community agency interns who only want to counsel students, unfortunately only a small fraction of our time is spent in that area. Agency interns also have a problem with ‘education terminology’. The education/counseling students have been extremely well prepared.”

“With the exception of one intern who had medical issues, the interns have been exceptionally well prepared (even that student was well prepared and professional). It has been enjoyable working with such highly motivated people. They have taught me a lot also.”

“Continue to provide and enhance programming specific to school counseling needs.”

“I want more XU interns!”
