

Business Luncheon hosted by SCIP and TechColumbus

Join **The Society of Competitive Intelligence Professionals (SCIP)** and **TechColumbus** to network and learn about the resources available for business professionals through these two organizations. You will also have the opportunity to hear from Toni Wilson with the MarketSmart Research Services and from Larry Olszewski from OCLC. Both presenters have extensive knowledge in the competitive intelligence field.

The Society of Competitive Intelligence Professionals (SCIP) is a global nonprofit membership organization that provides education and networking opportunities for business professionals working in the rapidly growing field of competitive intelligence (the legal and ethical collection and analysis of information regarding the capabilities, vulnerabilities, and intentions of business competitors). Many SCIP members have backgrounds in market research, strategic analysis, librarianship or science and technology.

TechStart, Central Ohio's Entrepreneurial Signature Program, is led by **TechColumbus** and supported financially by Ohio's Third Frontier Program and eighteen local partners. It provides early stage funding and mentoring assistance to entrepreneurs with promising tech businesses throughout 15 counties of Central Ohio. Representatives will provide information on program offerings, applicant eligibility, funds available and schedules for all available resources offered.

The event is free but registration is required.
