Humana makes it easier than ever to get the preventive services you need to maintain your overall health. As part of healthcare reform and depending on your Humana health plan, a range of preventive services will be available to you at no cost.

The services listed here will be covered **100 percent** when they’re done for preventive care. This means no copayments, coinsurance or deductibles when services are performed by providers in the Humana network. **Note:** You may need to pay all or part of the costs when services are completed to diagnose, monitor, or treat an illness or injury, not as preventive care.

Remember, preventive care keeps you healthy, prevents illness, and detects diseases in the early stages when they’re easier to treat.

**Adult Preventive Services**
Preventive office visits are covered, as well as the screenings, immunizations, and counseling listed below.

**Screenings**
- **Abdominal Aortic Aneurysm** – one time screening for men of specified ages who have ever smoked
- **Alcohol Misuse** – screening and counseling
- **Blood Pressure** – screening for all adults
- **Cholesterol** – screening for adults of certain ages or at higher risk
- **Colorectal Cancer** – screening for adults over 50
- **Depression** – screening for adults
- **Type 2 Diabetes** – screening for adults with high blood pressure
- **HIV** – screening for all adults at higher risk
- **Obesity** – screening and counseling for all adults
- **Syphilis** – screening for all adults at higher risk
- **Tobacco Use** – screening for all adults and cessation interventions for tobacco users

**Immunizations** (vaccines for adults – doses, recommended ages, and recommended populations vary):
- **Hepatitis A**
- **Hepatitis B**
- **Herpes Zoster**
- **Human Papillomavirus (HPV)**
- **Influenza**
- **Measles, Mumps, Rubella**
- **Meningococcal**
- **Pneumococcal**
- **Tetanus, Diphtheria, Pertussis**
- **Varicella**

**Counseling**
- **Diet** – counseling for adults at higher risk for chronic disease
- **Sexually Transmitted Infection (STI)** – prevention counseling for adults at higher risk

Refer to your certificate of coverage for details about all the covered services and benefits levels.

---

1. For more information on the definition of “higher risk” and age recommendations, please go to the US Preventive Guidelines at: [http://www.uspreventiveservicestaskforce.org/uspstfuspabec.htm](http://www.uspreventiveservicestaskforce.org/uspstfuspabec.htm)
2. On Aug. 1, 2011, the U.S. Department of Health and Humana Services released new guidelines regarding coverage of preventive health services for women. The new guidelines state that non-grandfathered insurance plans with plan years beginning on or after Aug. 1, 2012, must include these services without cost sharing.
3. Women 21-65: with cytology (Pap smear) every three years; women 30-65: wanting to lengthen the screening interval. This document is designed to provide a general overview of the health reform law. It does NOT attempt to cover all of the law’s provisions and should NOT be used as legal advice for implementation activities. We encourage you to seek any professional advice, including legal counsel, regarding how the new requirements will affect your specific plan. For complete details, refer to your plan’s Certificate of Coverage.
