**Learning Express Library plus Learn2** (quick start guide; complete list of tests; ) offers students and adults unlimited, 24/7 access to targeted skill-building interactive courses in math, reading, and writing, as well as tutorials in Microsoft Office products, including Word, Excel, Access, PowerPoint, and Outlook found in the Computer Skills section. These tutorials require the download and installation of a player/plugin (instructions for auto install or manual install). The player/plugin does not support Vista. There are hundreds of online interactive practice tests that prepare them for several types of standardized testing, including tests for school achievement, school skill improvement, advanced placement, U.S. citizenship, civil service, real estate, law enforcement, military entrance, nursing school entrance, college entrance, graduate school entrance, and cosmetology, as well as the ACT, ASVAB, CBEST, CUNY, EMS, GED, GMAT, GRE, LSAT, MCAT, PPST, SAT, THEA, and TOEFL. Complete answer explanations accompany each response so that patrons understand why a particular answer is correct or incorrect. All practice tests include instant diagnostic score reports that help patrons to target those skill areas that need the most attention. To help students master the SAT and recently added essay, instant score reports provide immediate feedback on how well they performed in each of five writing skill areas.

***To use this database, users must first set up an account on campus or at an Ohio public library or school.***

From the Public Library of Cincinnati and Hamilton County web page, Ohio residents should also have access to this resource.

Also, XU faculty, staff, and students can request somewhat recent textbooks from OhioLINK libraries if they wish to have these as a resource for test preparation in the business fields. In the XU library we do have some K-12 textbooks that can also be checked out for a refresher on areas such as math, literature, or history.

**For residents of Ohio who do not have access to the Xavier resources, they can get a library card to borrow books and access OhioLINK resources from the State Library of Ohio.**
