

Final Paper

Brandon

Well im going to start this by saying im going to miss everyone who was in the class with me.

The class was one of my favorite and best expiriences in my short life. I would love to do it agian.

I started out thinking that the class was going to be very dumb but I was wrong very wrong

It was a very good way to learn about the Criminal Justice System.

I learned alot from every body in the class.

I learned some real interesting things about the Criminal Justice System that I'm going to take home with me. There should be a Inside / Outside program at every prison. Honestly I feel it would help a bunch of inmates.

It would let them know that you don't have to commit a crime to survive there's other ways to live. And you meet people that are just like you in more ways than one. Y'all may not have come from the same

place but y'all going to the same place with alot of people on your side pushing and helping you along the way.

I loved this class and feel everyone should be apart of it in one way or another. besides getting my Gred graduating this class is one of my highest points in this class and my entire prison bid. Even tho I was one of the youngest in the class but got respect and gave it everyone else in the class.

Without this class I wouldn't
have met or talked to some of
the other inmates in the class
like ~~John~~ John I thought
he was a mean asshole before
I started talking to him and got
to know him and his story after
that first class he talked and told
us about his time in Mansfield
and how he seen people hanging
themselves and he made that letter
to his mother it let me know that
he gets nervous to ~~and~~ he's a nice guy

And then there's Prentice I thought
he was just a arrogant chess player
and a little obnoxious but he
opened up and told us way he
was here and that he has problems
Just like everybody else in the class
he told us about his child support
problems and how much he owe
and how he can't pay cause he locked
up and that's bullshit how they
~~can~~ just charge him with that
when they know he's locked up
that's just something I don't understand

Then there is Brain I never talked to him at all. When it comes to his opinions about punishment I do not agree with none of them except the murderers and rapist drug dealers and drug addicts shouldn't be giving 10 or 15 to life. They don't make people want the drugs the ~~people~~ people want the drugs they just give them the drugs for a small fee. It's not right but it's life and that's how it will always be with prison or without.

Justin's my dude in here
but I don't agree with him
that everybody didn't learn something
new in the class. I'm sure
everybody learned something
new from in the class and
they got to speak their opinions
without getting in ~~trouble~~ ~~trouble~~
trouble with the sarge and Sarwer
or Allen so he shouldn't have signed
up if he didn't want to do the work
or he didn't think the class was working

Lamar's the one I learned
the most from in the class
me and him came from class
everyweek and talked sometimes
with a group sometimes just me
and him but we talked he told
me bout his case I told him
about my case and we would
talk about whatever the class was
about me and Lamar bonded
the most out the class.

for bringing this class here and

I hope I see everyone again.

Stere was like everyone's
best friend laughing and learning
at the same time he was cool
with everybody and made us laugh
he always made us laugh and think.

So when this class end and
I go home I'm going to think
back to it and laugh about everybody

~~in the class~~ in the class and all the

fun we had and the serious

talks we had Thank you Cristine

for bringing this class here and

I hope I see everyone again.
