

The Integritas Program

The Integritas program provides trained Xavier faculty and staff to serve as “Integritas Advisors” and support Xavier students as they engage in the Student Conduct process. Integritas Advisors guide students through their preparation for and participation in student conduct hearings.

The Integritas program is grounded in our Jesuit values. The goal of the program is to support students in a manner which invites them to use the Ignatian way of learning, experience, reflection and action to engage as productive and positive members of the Xavier community.

The following Xavier faculty and staff members are trained Integritas Advisors:
