

Woman  
**Leader**  
Farmer  
Teacher

As a woman, a farmer, a teacher and a leader, Mary Lu illustrates what it means to be a committed member of the Grail. She acknowledges her limitations, as well as those of Grailville and of the whole earth community in a pragmatic way, while remaining committed to working with others toward ecological sustain-

ability. Her creativity, which she has demonstrated in various projects throughout the world, proves the transformative power the Grail encourages in women. While she is a leader in the Southwest Ohio agricultural community, she is easily a hero for anyone interested in farming or following their passions.
