

Park + Vine

Park + Vine offers a wide selection of green products, including green clothing, household supplies, grocery items, and gardening wares. Park + Vine is a complete reflection of Dan and his beliefs and values. The store is invested in supporting the green movement as well as local businesses so that the community can thrive.

Veganism drove Dan to entrepreneurship but his love of local businesses kept him interested and striving. Park + Vine takes an active interest in other businesses. It is a small place that has become a staple of Cincinnati's sustainable community and culture.
