Onsite Flu Vaccinations

Don't get caught by the flu bug this year. Receiving your vaccination in the [Xavier Health and Wellness Services](#) suite in the HUB, is an easy and convenient way to protect yourself from the seasonal influenza virus!

Top Reasons to Get Your Flu Vaccine This Season:

- Influenza is a potentially serious disease that can lead to hospitalization and sometimes even death.
- An annual flu vaccine is the most effective way to prevent illness caused by seasonal influenza viruses.
- According to the Centers for Disease Control and Prevention, the flu vaccine is needed every season for two reasons:
 1. The body's immune response from vaccination declines over time, so an annual vaccine is needed for optimal protection.
 2. Because flu viruses are constantly changing, the formulation of the flu vaccine is reviewed each year and updated as needed to keep up with changing flu viruses.

Onsite Flu Vaccination Cost

- **Insurance:** Bring your insurance card, and the vaccination will be billed directly to your insurance.
- **When scheduling your appointment, please have your insurance information available for registration. You will also be asked to present your insurance card and photo ID during your appointment time.**

Vaccinations will be available by appointment only, and available starting September 14th.

For more information, contact the Health Services team at the Health United Building (HUB)
