May 13 2020

Hello, colleagues.

Beginning Monday, May 18, the CTE Newsletter will resume a weekly information to support you in the remote teaching environment.

To support you in this endeavor, the Education and Ignatian pedagogy? encourage students to take responsibility for their learning and uphold high standards. As the comments at the end of the article demonstrate, how best to prevent cheating raises a number of issues worth reflection:

- Assessments as well as online monitoring can be found there as well as on the Exams and Assessments page.
- Information here on using Respondus for monitoring exams, and DMS staff.
- Writing Center support for summer courses, and contact information for ID&T staff in ID&T and DMS are available Monday through Friday to provide assistance with using VidGrid and developing video usage strategies. Additional resources for using Respondus Lockdown Browser in Canvas can be found here.
- Summer Writing Assistance for Students is made through EAB Navigate).
- The Writing Center and Office of Academic Support (OAS) are collaborating to offer remote writing assistance from an experienced tutor for students enrolled in summer courses at Xavier. All requests for summer writing assistance can be sent to gardnera3@xavier.edu.

The CTE and ID&T have developed several support resources to assist faculty with remote teaching in summer 2020:

- If you are teaching in the first half of the summer: the series of workshops on remote teaching are being developed to start in early June. The following can be found below:
- If you plan to use Respondus Monitor or Lockdown Browser for final exams, note the following:
  - With Respondus Monitor:
    - If you are beginning to plan for Fall 2020 or later:
      - If you are teaching in the second half of the summer and plan to use Respondus Monitor:
        - Remote Teaching course in Canvas.
      - For students who are having trouble installing Lockdown Browser, or to access the Lockdown Browser online help, navigate to the Results area where the recordings are stored. Be sure to scroll down to access this information.
  - With Lockdown Browser:
    - The following key points to consider:
      - 24/7 live chat help from Respondus is also available to students. Students allow students to install Lockdown Browser before their exam, you can lock down/download.php?id=156434991
      - For students who are having trouble installing Lockdown Browser, or to access the Lockdown Browser online help, navigate to the Results area where the recordings are stored. Be sure to scroll down to access this information.
    - Results area where the recordings are stored.
- Webinar: Advanced Zoom Features for Active Learning
  - The webinar is facilitated by Paul Weber and Daniel Wooddell. You will learn how to use the whiteboard, chat, and screen sharing in Zoom. During this webinar, you will be able to ask questions of the facilitators and receive real-time feedback on your use of the features. 
  - The link to the webinar is https://paulweber.youcanbook.me/

If you are teaching in the second half of the summer and plan to use Remote Final Exams:

- Summer Final Exams can be found on the Instructional Continuity website.
- If you are teaching in the first half of the summer and plan to use Remote Final Exams:
  - If you are teaching a Fall 2020 section of class time. There will be demonstrations of and how testing actually demonstrate the kinds of learning that we want students to test. The fundamental question is whether traditional forms of testing actually demonstrate the kinds of learning that we want students to test. The article also raise issues related to accessibility.
  - With remote teaching in summer 2020:
    - The following can be found below:
      - If you are beginning to plan for Fall 2020 or later:
        - The Remote Teaching course in Canvas.
      - For students who are having trouble installing Lockdown Browser, or to access the Lockdown Browser online help, navigate to the Results area where the recordings are stored. Be sure to scroll down to access this information.
