Courage. Insight. Strength.

Who doesn't need these things in today's world? The Institute for Spirituality and Social Justice is pleased to offer a four-week virtual seminar rooted in the Spiritual Exercises.

Facilitated by Dr. Gillian Ahlgren, author of *Spiritual Exercises for the 21st Century: A Workbook*, this seminar will empower you with principles and practices to guide your reflection, discernment, growth, goal-setting, and purposeful action. These extraordinary times call for new forms of reflection, solidarity and social analysis that enable us to re-imagine ourselves and our communities. Take four weeks to engage an empowering process that will ground you in hope and give you new purpose in today's world.
