

New Users: Requesting a Bloomberg Terminal Login

Students and faculty who do not have an existing Bloomberg Terminal login can request a Bloomberg username and password at the BMC web portal: <https://portal.bloombergforeducation.com/>.

Select Sign Up, and based on your role, select “Sign up as Learner” or “Sign up as Professor”.

Sign Up

Learner
I am interested in taking Bloomberg Market Concepts (BMC).
[Sign up as Learner >](#)

Professor
I am interested in reviewing BMC and enrolling others (e.g. a class) in BMC. [Learn more.](#)
[Sign up as Professor >](#)

Use your Xavier email address to create your account. You will receive an email from Bloomberg to verify your account.

Once your account is verified, navigate to the Terminal Access tab on the BMC web portal, and select “request terminal access.”

Shared Bloomberg Terminal Access

Your account is currently associated with: **Xavier University**. A faculty member at your academic institution must authorize this account before you are able to create a Bloomberg Terminal login. You can indicate your interest in access to a Bloomberg Terminal using the slider below. This will record the date of the request and add your account to the list of accounts requesting access on your faculty's administrative portal.

Requested Request Submitted **November 12, 2020**

Please refer to your school's guidelines on how to notify a faculty member of your interest in access to a Bloomberg Terminal. The Bloomberg for Education support team cannot authorize accounts for access to Bloomberg Terminals.

A Xavier faculty member will authorize your account. Once your account is authorized, you may create a login for terminal access.

Existing Account Holders:

Students and faculty with a BMC account tied to their university e-mail can login with their BMC username and password.

Logging In to a Terminal Remotely

Once a student or professor has a Bloomberg login (different from a BMC login), users may login to Bloomberg remotely using the following steps:

Step 1: Navigate to <https://bba.bloomberg.net/>

Step 2: Enter personal Bloomberg username and password

NOTE: Bloomberg Terminal credentials should be used. BMC credentials are NOT valid here.

Step 3: Verify identity with a code sent to the enrolled student email or mobile device.

IMPORTANT NOTE: Only one student can be logged into a Bloomberg Terminal remotely. If a Student A is logging in and the terminal is being used by Student B, Student A will see a warning that they are logging into a terminal that is currently being used by Student B. Student A will have the option to kick Student B off or try again later. If Student B was randomly kicked off the terminal, this means Student A kicked Student B off the terminal.

Please contact Kimberly Renners (rennersk@xavier.edu) with access questions.
