CAMPUS VISIT
On Thursday, October 25, 2018, alumnus David Strong ‘91M spent time on campus with our second year MHSA students, with XU leadership, and participated in an off-campus event with MHSA alumni.

David Strong ‘91M, President and CEO of Orlando Health, did a presentation to the second-year MHSA students about the Pulse Nightclub shooting in June 2016 and how the entire Orlando Health organization met the challenge of this disaster situation. None of the 40+ shooting victims who were cared for at Orlando Health died, no matter how vicious their injuries. The care totaled $4M+ valuation but Orlando Health chose not to bill any of these patients for services.

Following David’s presentation, he joined our students for an informal question/answer conversation in the Deco-Diner. Students had the opportunity to ask him more about the “how’s” and the “what-would-I-think-about’s” if they were in that situation.

In the evening David spoke again at an alumni reception at Maketewah Country Club. He shared his thoughts about why the HUB project is important to Xavier students. David also indicated that he will make a capital contribution toward the “Edward Arlinghaus Health Commons” large-group gathering space on the HUB 4th floor and asked alumni to join him.

FACULTY AND STUDENT RESEARCH
Congratulations to faculty member, Professor Dr. Eddie Hooker and to MHSA second-year student, Tyler Britton, who presented at the APHA 2018 Annual Meeting & Expo in San Diego CA from November 10-14, 2018. Pictured are (L to R) Tyler Britton and Dr. Hooker.

The title of their presentation was: “Longitudinal Follow-up of an Ultra-brief CPR Mass Training Program.” Tyler represented two classmates, Nicholas Bryant ‘20M and Grant Collins ‘20M who also worked on the project.
