IN THE THROES OF CORONAVIRUS PROTECTION

Since the beginning of 2020 Xavier has been making plans for how to mitigate the coronavirus situation and to protect our students, faculty, and staff from its spread. In mid-March decisions were finalized to support the requirements from the State of Ohio to colleges and universities. This included the following:

- Going to remote learning modalities for all classes through the end of the spring 2020 semester. This means that neither students nor faculty would be on campus.
- Going to a work-at-home mode for the majority of XU staff.
- Cancelling all academic and Xavier community events on campus at least through April 30, 2020.

We appreciate Xavier's forward-thinking during this situation in order to protect everyone as much as possible and to mitigate the spread of the coronavirus in order to bring it to containment.

Perhaps the silver lining in this situation worldwide is that Covid-19 is forcing everyone to stop—to stop large group activities, like school or church or sporting events or public gatherings. Instead, we are experiencing self-isolation, self-imposed confinement, and learning anew the power and significance of life as an individual. Perhaps this will bring us in-tune anew with our own thinking, with what's really important, and with a renewed understanding of social responsibility. We must STOP in order to BE. This is all new to everyone and is uncharted waters. In our lifetimes we've never been in a place like this before.
