

# All for One One for All

I am excited to put into practice what I have learned throughout the AFMIX program to further support and develop my student workers in the Offices of Disability Services and Academic Support. I am currently responsible for the supervision and training of 20+ students and I take this role very seriously. I aspire to impart what I have learned about the values and mission of the University to these students; to not only demonstrate but also to teach.

To be more specific, I would like to inspire Cura Personalis and Discernment in their own area of Career Development, to guide them on their own career path to finding the most job satisfaction they can achieve based on their passions, values, talents and skills. I would like to impress upon them the value of Reflection in becoming self-aware to encourage personal growth and learning. I aim to invoke a larger sense of purpose which leads to Service of others; and to motivate them to Magis where they learn personal accountability and strive for high performance. I also strive to spark Solidarity and Kinship which will help them in building relationships, embracing diversity amongst people, and learning to be “with” others rather than serving them from the outside.

This program has been a true joy in the sense that it not only taught these spiritual attributes but embraces them in everything we do. It is an inspiration to work for an organization that puts time and focus on the unseen and eternal aspects of life both for the individual and the group. Xavier truly embodies the All for One...One for All philosophy. Thank you for letting me a part of it!
