

## STUDENT EMPLOYEE SPOTLIGHT

*Advice from Marin to other Xavier students, "For any student wondering what to do at Xavier, I would recommend looking into the different options that Xavier's Campus has".*

### Say Hello to Marin Hogue!

Marin is a Junior, Primary Education major.

Marin has worked as an Extended Care Assistant in the Montessori Lab School for almost 3 years. "I work with students in a range of ages, and help them learn skills on how to collaborate and communicate with their peers."

"I have learned so many classroom management skills, along with how to collaborate and communicate with my coworkers and the students. The Montessori school has helped me become a better future teacher and become more confident in myself when teaching," Marin says.

Marin mentions that her most proud accomplishment in this role is, "I have been able to help numerous students gain the skills they need to work through their struggles, along with creating a community between me and the students."

Congratulations Marin for being nominated for the 2025 Student Employee of the Year!
