Xavier Peer Mentor Program

The Peer Mentor Program was developed to help new students succeed in their first year at Xavier University. Rising Juniors and Seniors serve as Peer Mentors and assist in Goa classes which occur every week for the first six weeks of each semester. The Peer Mentors serve as a resource, advocate, and role model for new students to help in their successful transition to Xavier inside and outside the classroom.

Peer Mentors will attend Goa classes where they will meet and connect with first year students weekly. They will be available to assist Goa instructors offering their perspectives and opinions on topics covered in Goa. Additionally they will meet with the first year students from their Goa class informally (in small groups and as a larger group) outside of the classroom to ensure all students have access to the tools they need to make a smooth transition to college. Peer Mentors will help students find the answers they need to simple questions, connect them to offices on campus that can help academically, or provide them with the necessary support to get involved and become a part of the larger Xavier community.
