

Using Hypothesis Within Canvas

Inside your course in Canvas, Add an Assignment

Add the instructions for the assignment and assignment details.

Under Submission Type, choose External Tool and click Find, Choose Hypothesis from the list, click Select

Select web page or PDF

You can select content for your assignment from one of the following sources:

Enter URL of web page or PDF

Select PDF from Canvas

Select PDF from Google Drive

After you've added your link or PDF, click Select. *You may want to choose it to load in a new tab

Note: You will be able to view and add individual private comments inside Speedgrader

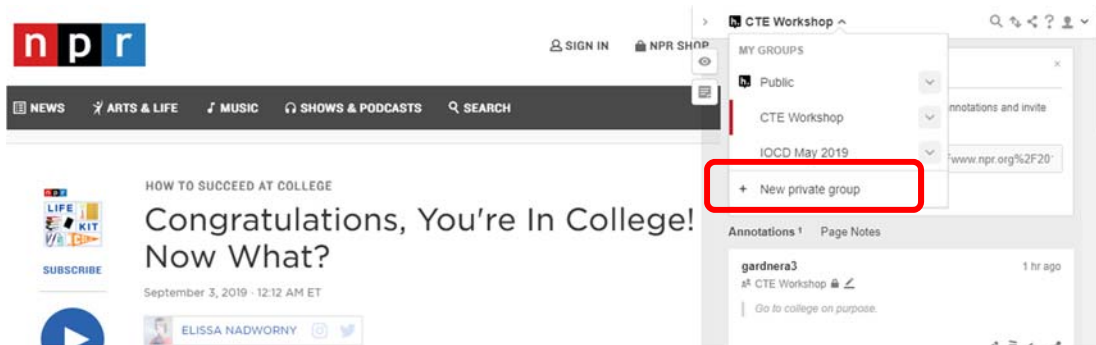

Using Hypothesis Outside of Canvas

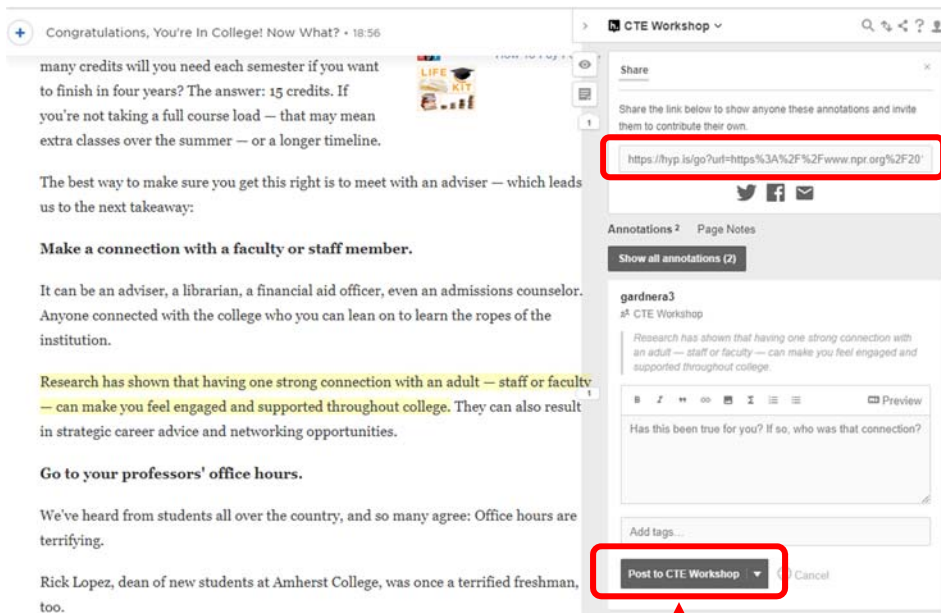

Follow the instructions on the website to create an account, and add Hypothesis to your browser

You can enable Hypothesis through the Chrome extension or bookmark

Create a group for your class

Create Annotations

You can then share the link through email or Canvas announcements for your students to view and add their own annotations

Post your annotations to the group you created
